**PMP AUTO BOTTOM CARTON ERECTOR – MODEL AB1400**

The PMP Auto Bottom Carton Erector automatically opens and locks auto bottom style cartons. This automated solution for auto bottom cartons is designed with simplicity in mind yet includes quality long lasting components with outstanding craftsmanship

The PMP AB 1400 will remove carton from the magazine, open, lock and deposit the carton automatically. This rock solid unit can run cartons independently or can be integrated as an on demand system into a fully automatic line.

**COMPACT 26" WIDE X 44" LENGTH X 54" FOOTPRINT**

**Standard Features Include:**

- Anodized Aluminum Frame
- Allen Bradley Processor and Components
- Pushbutton Controls
- Custom Vacuum Head
- Integrated Carton Magazine

- Reduce labor cost with quick payback
- Easily integrated with filling machines

Auto Erector can be configured for virtually any size carton and speed requirement.
